Brickweb™ is easy to install:

Apply adhesive to substrate using 3/8" x 3/8" notch trowel.
(Aplicar el cemento en la superficie con una llana de 3/8" x 3/8" de abertura.)

Begin layout process by applying Brickweb corners. Firmly press Brickweb into adhesive, ensuring adhesive extrudes through webbing.

(Iniciar el proceso de diseño aplicando primero las esquinas y presione firmemente el brick sobre el cemento, asegurando adhesivo expulsa a través de las correas.)

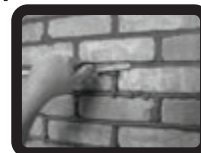

Apply Brickweb sheets by over-lapping exposed webbing. Firmly press Brickweb into adhesive, ensuring adhesive extrudes through webbing.

(Aplique las hojas Brickweb sobre las telas expuestas y presione firmemente sobre el cemento, asegurando adhesivo expulsa a través de las correas.)

Apply grout using grout bag.
(Aplique el grout con la bolsa.)

Finish grout with tool.
(Termine el grout con la herramienta.)

Grout Option 2

Apply grout using tile float.
(Aplicar el grout usando una flota para piso de ceramic.)

Finish grout with sponge.
(Terminar el grout con una esponja humeda.)

WARNING: The dust generated from dry sawing may contain silica and may be a potential health problem for the lungs. Wet sawing is recommended. Wear all necessary protective gear.

*To help keep brick faces clean, apply a grout release product to the brick prior to grout application.
